

ULTRA-RUGGED AND READY FOR DEMANDING FIELD SERVICE ENVIRONMENTS

Are your current devices ready for the rough environments your workers experience in the field? If they aren't, meet the new Honeywell CN75 ultra-rugged mobile computer.

The CN75 is ready for anything: rain, dust, bad reception. This IP67-rated device can handle drops to concrete from 8 feet and has a full-shift battery – delivering the industry's highest uptime.

And with its flexible radio technology and powerful processor, your workers will have access to the real-time data they need to make critical decisions in the field and satisfy customers. More efficient employees, happier customers – what's not to like?

ONE ULTRA-RUGGED DEVICE. A CHOICE OF TWO OPERATING SYSTEMS.

Are your field service operations ready to transition to Android™ 6.0? Or, would you prefer to wait and get every last bit of benefit from your investment in Windows® Embedded Handheld 6.5?

Now, there's a single mobile computing device that lets you do both. Honeywell's CK75 ultra-rugged mobile computer supports both operating systems – so you can extend support for WEH, then convert your CN75 devices to the next-generation OS when your business is ready.

Get investment protection in an ultra-rugged device that leads its class in both durability and ergonomics – the new CN75.

FAST, ACCURATE SCANNING IN ANY LIGHTING CONDITION

Your field workers need to correctly read a barcode even if a package has gotten damaged or dirty while in transit. Manual entries can cause errors and cost valuable time.

That's why the new CN75 ultra-rugged mobile computer is such an advantage for field service operations. Based on our proven EA30 2D imager, the CN75 delivers fast scan performance and highly accurate scans, even on poor-quality barcodes. This drives greater efficiency in your field mobility workforce, each and every day.

Only the CN75 combines industry-leading ruggedness and reliability with superior scanning performance. Give your field mobility workforce the ultimate device to deliver the best customer service: the new CN75.
