

Put profitability in the palm of your hand.

[Learn More >>](#)

Mobile computing has evolved with the Intermec CS40 – rugged, powerful and unlike anything you've seen before. In a package with the size and sleek versatility of a smartphone, you get a tough, dependable device that allows you to:

- Scan 1D and 2D barcodes
- Update inventory
- Send messages and emails
- Take photos
- Make phone calls
- Download files
- Increase efficiency and profitability

Best of all, you'll enjoy a total cost of ownership that's up to four times better than a smartphone. See all the ways the CS40 can help your teams be more efficient.

Go to where rugged meets sleek.
