Whatever your scanning needs are, Intermec's range of General Duty Scanners will meet your needs and exceed your expectations.

The General Duty Scanners range comprise of scanners with simple 1D barcode scanning to high performance 1D/2D barcode scanning. Other than generic barcode scanning functionality, the high end range scanners are able to perform:

- Document Capture (useful for countertop document capture use cases, eliminating the need of a desktop scanner)
- Image Capture
- Video Capture (continuous)
- Multiple barcode scans at one trigger point
- High successful read rates using motion tolerance

In other words, Intermec's General Duty Scanners are about Performance, Choice and Affordability.

Learn More about Our NEW General Duty Scanners:

Affordable, simple scanning

The SG10T is an affordable and reliable 1D handheld bar code reader that is designed for hassle-free deployments in any 1D barcode data capture environment.
