

**Versatility
speaks for itself.**

NEW

Introducing the New CN51

Collect data faster. Expand your capabilities. Surpass customer expectations. All this and more with the new CN51.

Future-proof your enterprise with the unique ability to migrate from Windows to the Android operating system – on the same device, all without having to purchase new or additional hardware. A big, beautiful touchscreen and full keypad ensure easy use, while features like advanced software-application tools and an all-day battery deliver results you can depend on.
