Together program

Boost warehouse productivity with an Intermec integrated data-collection solution. Start with the Intermec CK3 mobile computer to perform multiple computing functions on a single device. Optimize performance of the CK3 connection to your back-end inventory system with the Intermec Client Pack software. Add an Intermec rugged mobile label printer and benefit from a time-to-first-label solution that's twice as fast as the competition. Don't forget Intermec's most popular mid-range fixed printer for warehouse applications – the PM4i. Back it all up with Intermec's Medallion Service for repair response times three times faster than the basic warranty. Combine all five of these options to qualify for the maximum Better Together rebate value.

Complete the Better Together rebate coupon and send in your old computers to earn a trade-in rebate. Add Better Together complementary products to your CK3 purchase invoice to increase the rebate value.
