

**Streamline passenger check-in
with the industry's fastest
baggage tag printer.**

Introducing the PM23c, a compact printer specifically designed to the needs of the airline industry. Ideal for high-volume baggage tag printing, the PM23c features a two-inch print width, quick 12 inch-per-second print speed, and intuitive touchscreen user interface. With a rock-solid printing solution like PM23c, you can focus on what really counts: providing an exemplary service experience to your passengers.
