

Learn more about our Voyager® scanners. **SPECIAL SAVINGS MAY APPLY.**

Behold the power of Honeywell's Voyager class of scanners.

They feature powerfully advanced scanning technology and are designed to help enterprises meet all of their current and future scanning needs. Leverage emerging trends. Do more in less space. Scan smarter.

The Voyager 1400g 1D:

- Snappy, omnidirectional 1D barcode reading
- Can be affordably upgraded to enable PDF and 2D barcode scanning
- Capable of reading barcodes off smartphone screens — ready for mobile couponing and e-loyalty programs

The Voyager 1250g:

- Single-line laser scanner with aggressive linear barcode reading performance
- Extended scan range of up to 23" reduces user fatigue
- Quickly configure for hands-free scanning, with simple scan-stand and automatic in-stand detection
